SPECIAL INSTRUCTIONS Maintenance/Operation

Follow all procedures listed in this manual. Carry Handle with Windage and Elevation Adjustments.

STEP 1. Remove stock handle with a 1/8 hex wrench. Slide the handle to the rear of the marker to remove.

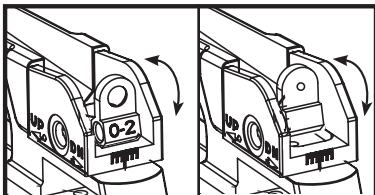

STEP 2. Place the new handle on the marker. Make sure the groove on the rear of the sight is in the 2nd to last groove on the marker. Tighten the sight onto the marker by tightening the two thumb screws.

Sight Features

Press on the sights to adjust from the different styles.

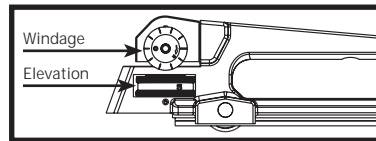

To increase the height of the sight and reduce the distance of your aim, turn the elevation adjustment clockwise.

To decrease the height of the sight and increase the distance of your aim, turn the elevation adjustment counter-clockwise.

To adjust the sight to the right for windage, turn the windage adjustment clockwise.

To adjust the sight to the left for windage, turn the windage adjustment counter-clockwise.
